The faculty at NBBS are also pastors or missionaries. Because of this they are “church men.” They teach from a church perspective with experience and conviction—holding to the view that this is the Church Age, as set up by Christ. You will receive, while in school, plenty of encouragement therefore to be involved in all the various aspects of your church’s ministry as part of your training for the ministry.

NBBS is here for your church and family, your family or church are not here for NBBS! We are “user” (and church and family) friendly!
